

Welcome to EDF Energy, Bridgwater

This public space is intended as a one stop shop for people to find out about our plans for new nuclear power development at Hinkley Point.

Inside you will find information contained on exhibition boards, as well as models and images, intended to provide you with an overview of EDF Energy, our parent company EDF Group and our plans for Hinkley Point.

Please take your time looking around the exhibition, and help yourselves to any of the leaflets provided.

We hope you enjoy your visit. If you have any questions please ask, or leave your comments and contact details in the comment box by the door.

Thank you
